ITEMS FROM SCHOOL NEWSLETTERS, WEBSITES, AND THE FIELD

Academy @ Shawnee

The Academy @ Shawnee "High Flyers" had a spectacular showing at their first appearance at NASEI's National Wing Design Competition and Flight Challenge in Somerset, Kentucky this weekend. The mission was to design, build, and fly a light weight, heavy lift wing, carrying as many payloads as far away from the center of thrust as possible. The design was left up to the creativity of the team.

The Wing Design Team, consisting of Jo Jewell, Peyton Adelman, Elizabeth Bates, Shelby Wilbert, Nik Korbylo (AMA Pilot), Matthew Vincent, and Milan Bailey, was one of only seven teams that successfully earned a flight score for flying their wing at the competition. In addition, Academy @ Shawnee was one of only three teams with their own AMA student pilot flying in the competition. If that wasn't enough cause for celebration, Academy @ Shawnee also won third place in the Flight Challenge Competition

that was held during the same time as the Wing Design Competition. Individual recognitions went to Nik Korbylo, who won second place in the Aircraft Recognition category, and Peyton Adelmann, who won first place in the Flight Sim Maneuvers category. Congratulations High Flyers!

Hopkins County Central High School

Congratulations to our second trimester nursing assistant students! From left to right: Aubrianna Brown, Kaitlyn Heltsley, Morgan Shelton, Morgan Moore, Cassie Embrey, Faith Adamson, Cameron Pyle, Whitley Adams, and Skylynn McCay. Absent from photo: Ashton Brumfield, Diesha Myers, and Tamesha Shelton.

Greenup County High School

Five Greenup County High School juniors have been accepted to the Kentucky Governor's Scholars Program. These students will participate in a five week summer residential program for outstanding high school students in Kentucky who are rising seniors. Congratulations 2015 Governor's Scholars: Miranda Robinson, Amber Brown, Ross Skeens, Alex Quillen, and Abby Sanders!

Newport High School

Congratulations to Newport High School Junior Maria Specht for her winning entry in the State-Fish art contest. Maria placed third in the state of Ky. for her colored pencil drawing of a large-mouth bass and for her essay about bass habitat, behavior, and conservation.

The State-Fish art contest is a national art contest which serves as an outreach initiative and showcase for youth in the arts. Wildlife Forever's State-Fish Art Contest is in its 17th year as an amazingly successful conservation education program combining art and writing to catch the imagination of students and science to foster discovery of the natural world, thereby increasing awareness of and respect for aquatic resources.

Pulaski County High School

Congratulations to all of the outstanding students who received the Work Ethic Seal!

The Work Ethic Seal program prepares high school juniors and seniors for the transition from school to work and life beyond the classroom. One of the missions of the program is to ensure that high school students are acquiring the needed work ethic in order to obtain and secure successful employment.

Seniors earning the Seal will receive a seal on their diploma and on their transcript. Potential employers look for it because these potential employees have already demonstrated a proven work ethic. They have proven they are dependable, reliable, trustworthy, honest, and that they can work well with others. The “soft skills” that potential employers seek have already been demonstrated by work ethic seal recipients.

In addition, seniors earning the Seal will receive a senior cord to wear with their cap and gown at graduation and a letter of recommendation signed by the superintendent of schools, the President of the Development Foundation, and the President of the Pulaski County Educational Consortium.

Juniors earning the Seal will also receive the letter of recommendation that can make a significant difference when seeking employment. Juniors must qualify again during the senior year to actually receive the seal on their diploma.

The Pulaski County Development Foundation also sponsors a catered luncheon for all the Work Ethic Seal Recipients and their parents held at the Center for Rural Development.
